

VERICORD IQ3 ENTERPRISE INTEGRATION WITH MYGOVERNMENTONLINE

Super-charge your permits, licensing and code enforcement inspections process!

1. INTEGRATED PARTNER

The IQ3 integration with MyGovernmentOnline transforms municipal inspection processes by seamlessly connecting field operations with digital workflow management. By combining powerful mobile technology with comprehensive cloud-based reporting, IQ3 enables government agencies to conduct faster, more accurate inspections across code enforcement, permitting, and public safety domains, reducing administrative overhead and improving operational efficiency.

2. KEY INTEGRATION FEATURES

- Seamless MyGovernmentOnline portal connectivity
- Compatible with Android and iOS devices
- Configurable inspector workflow
- Instant reporting and upload
- Live streaming capabilities

3. INSPECTION WORKFLOW

- Configure for code enforcement, permitting, and fire inspections
- Digital on-screen measuring tools
- Video conferencing during inspections

4. SEAMLESS MGO INTEGRATION

- Initiate Remote Video Inspections (RVI)
- Schedule inspections from the MGO Mobile App
- Immediate inspection confirmations
- Supervisor event monitoring

5. ENTERPRISE-GRADE SECURITY

- OAuth 2.0 authentication
- Load balancing and caching

Plug in IQ3 and boost your MGO capabilities!
